Runabout Privacy Policy

Last updated: 13 November 2026

Runabout is made by Liam Taylor, trading as LPT Studio ("we"). This policy explains what happens to your information when you use Runabout. In short: there is no account, no advertising and no tracking, and almost everything stays on your iPhone.

Information that stays on your device

Your stops, routes, saved and recent routes, notes, vehicles, fuel prices and settings are stored only on your iPhone. If you choose to import from Contacts, Reminders or Calendar, Runabout reads them on your device only, and only when you ask it to. We never receive this information.

Location

Runabout uses your location only while the app is open: as the starting point for a route, and to offer to mark a stop as done when you open the app at that stop. Runabout does not track your location in the background.

Information sent to service providers

To plan a route, the positions of your stops are sent to Apple's Maps services to work out driving times and directions. This is covered by Apple's privacy policy (apple.com/legal/privacy).

To check opening hours, the name and position of shops and venues on your route are sent to TomTom's Search service. This is covered by TomTom's privacy notice (tomtom.com/privacy). No name, contact details or account information about you is sent.

When you send a route to Apple Maps, Google Maps or Waze, the stops are passed to that app and its own privacy policy applies.

Purchases

Subscriptions are handled by Apple. We do not receive your payment details.

Information we collect

We do not collect, store or sell personal information. We do not use analytics or advertising services, and we do not track you across other apps or websites.

Children

Runabout is not directed at children and does not knowingly collect information from them.

Your rights

Because we do not hold your personal information, there is nothing for us to access, correct or delete. You can remove everything Runabout stores by deleting the app. Under UK GDPR you can contact us with any privacy question.

Changes

If this policy changes, the new version will be posted at this address with a new date.
